

Worried about the cost of vaccines for your children?

You may qualify for free vaccines through the Vaccines for Children (VFC) program.

Children younger than age 19 who are in at least one of the following groups are eligible for VFC vaccine:

Medicaid (BadgerCare Plus)
enrolled or eligible

No health insurance

Underinsured*

American Indian or Alaska
Native

*Underinsured means your child's private health insurance does not cover all vaccines. They can receive non-covered vaccines through VFC for no cost at a Federally Qualified Health Center (FQHC) or a Rural Health Clinic (RHC). Please call ahead to confirm the provider vaccinates underinsured children.

To learn more

Scan the QR code below to visit the VFC webpage to find a VFC location and more VFC program information.

Other possible costs

- There is no cost for the vaccine.
- There may be a cost for giving each vaccine, **but you will not be denied if you cannot pay it.**
- Some locations may charge a fee for the office visit and other non-vaccine services. Call ahead for more information.

Please call the VFC location ahead of time to see if you need to make an appointment.
